KASHMIRI

Botanical name: Capsicum annuum

- Origin:** Jammu & Kashmir and neighboring northern regions
- Color / Heat:** Bright to deep red; mild heat
- Speciality / Best Use:** Prized for vivid red color and gentle pungency. Ideal for powders, curry bases, marinades, and color-forward blends.

- ASTA (Indicative):** 120 – 170
- SHU (Indicative):** 1,000 – 2,000
- Forms:** Whole, Powder, Flakes

BYADAGI

Botanical name: Capsicum annuum

- Origin:** Karnataka, especially the Byadagi/Haveri belt
- Color / Heat:** Deep red; low to medium heat
- Speciality / Best Use:** Valued for strong and color retention. Excellent for powders, chilli oil, and coastal cuisine blends.

- ASTA (Indicative):** 130 – 180
- SHU (Indicative):** 8,000 – 15,000
- Forms:** Whole, Powder, Flakes

TEJA S17 / S15

Botanical name: Capsicum annuum

- Origin:** Andhra Pradesh
- Color / Heat:** Bright red; hot to very hot
- Speciality / Best Use:** Known for strong pungency and reliable heat in blends and snacks. Suitable for powders, flakes, crushed chilli.

- ASTA (Indicative):** 60 – 100
- SHU (Indicative):** 50,000 – 90,000
- Forms:** Whole, Powder, Flakes, Crushed

GUNTUR SANNAM

Botanical name: Capsicum annuum

- Origin:** Andhra Pradesh and Telangana, especially Guntur, Warangal, and Khammam
- Color / Heat:** Medium red; medium to high pungency
- Speciality / Best Use:** A widely traded workhorse chilli for masalas, pickles, powders, and general industrial use.

- ASTA (Indicative):** 80 – 120
- SHU (Indicative):** 30,000 – 45,000
- Forms:** Whole, Powder, Flakes, Crushed

ASTA colour values and SHU (Scoville Heat Units) are indicative and may vary by crop, grade, and buyer specification. Custom quality specifications and mesh sizes available on request.
